

HIDDEN DANGERS.

Nature Gives Timely Warnings That No Orangeburg Citizen Can Afford to Ignore.

DANGER SIGNAL NO. 1 comes from the kidney secretions. They will warn you when the kidneys are sick. Well kidneys excrete a clear, amber fluid. Sick kidneys send out a thin, pale, and foamy, or a thick red, ill-smelling urine, full of sediment and irregular of passage.

DANGER SIGNAL NO. 2 comes from the back. Back pains, dull and heavy, or sharp and acute tell you of sick kidneys and warn you of the approach of dropsy, diabetes and Bright's disease. Doan's Kidney Pills cure sick kidneys and cure them permanently.

E. Starton, well known in Florence, S. C., says: "Doan's Kidney Pills helped my back after everything else had failed, and after I had thought that my back was worn out. They made it stronger than it had been for five or six years and seemed to put a new backbone in me. I have had a terrible time with backache which was greatly aggravated by my work and at times I had to lay off for I could not work on account of the acute pains across my loins. I could not begin to tell you all I have suffered. The secretions from my kidneys also bothered me, were very dark in color and contained sediment, being also too frequent in action and annoying me during the day and preventing my resting well at nights. I applied plasters and rubbed my back with liniments but nothing helped me until I read about Doan's Kidney Pills and procured a box. They were just what I needed and are the best backache remedy I ever used. I have not had backache since I used them, the kidney secretions are all right, I can sleep all night without having to get up and my back is stronger than it has been for a number of years."

Plenty more proof like this from Orangeburg people. Call at J. G. Wannamaker's drug store and ask what customers report.

For sale by all dealers. Price 50c. Foster-Milburn Co., Buffalo, New York, sole agent for United States. Remember the name—Doan's—and take no other.

Time will tell; but gossips manage to tell it first.

Human Filters.

The function of the kidneys is to strain out the impurities of the blood which is constantly passing through them. Foley's Kidney Remedy makes the kidneys healthy so they will strain out all waste matter from the blood. Take Foley's Kidney Remedy at once and it will make you well. A. C. Dukes, Lowman Drug Co.

When you see a man advertising his virtues it is to keep your attention off his real character.

Tired mothers, worn out by the peevish, cross baby have found Cas-casweet a boon and a blessing. Cas-casweet is for babies and children and is especially good for the ill so common in cold weather. Look for the ingredients printed on the bottle. Contains no harmful drugs. Sold by A. C. Dukes, and A. C. Doyle & Co.

Beware the geese when the fox preaches.

Tired nerves, with that "no ambition" feeling that is commonly felt in spring or early summer, can be easily and quickly altered by taking what is known to druggists everywhere as Dr. Shoop's Restorative. One will absolutely note a changed feeling within 48 hours after beginning to take the Restorative. The bowels get sluggish in the winter-time, the circulation often slows up, the kidneys are inactive, and even the heart in many cases grows decidedly weaker. Dr. Shoop's Restorative is recognized everywhere as a genuine tonic to these vital organs. It builds up and strengthens the worn-out weakened nerves; it sharpens the falling appetite, and universally aids digestion. It always quickly brings renewed strength, life, vigor, and ambition. Try it and be convinced. Sold by Dr. J. G. Wannamaker Mfg. Co.

Don't be afraid to do more than is required of you.

Serious Results Feared.

You may well fear serious results from a cough or cold, as pneumonia and consumption start with a cold. Foley's Honey and Tar cures the most obstinate coughs or colds and prevents serious results. Refuse substitutes. Lowman Drug Co., A. C. Dukes.

Don't be afraid to change a man's opinion, but be careful how you do it.

Kennedy's Laxative Cough Syrup—the cough syrup that tastes nearly as good as maple sugar and which children like to take so well. Unlike nearly all other remedies, it does not constipate, but on the other hand it acts promptly yet gently on the bowels, through which the cold is forced out of the system, and at the same time it allays inflammation. Always use Kennedy's Laxative Cough Syrup. Sold by A. C. Dukes, A. C. Doyle & Co.

A green winter makes a fat church yard.

"Health Coffee" is really the closest Coffee Imitation ever yet produced. This clever Coffee Substitute was recently purchased by Dr. Shoop of Racine, Wis. Not a grain of real coffee in it either. Dr. Shoop's Health Coffee is made from pure toasted grains, with malt, nuts, etc. Really it would fool an expert; who might drink it for coffee. No 20 or 30 minutes tedious boiling. "Made in a minute" says the doctor. Sold by A. L. Dukes.

It is not a disgrace to fail, but it is a sin not to try again.

Colds That Hang On.

Colds that hang on in the spring deplete the system, exhaust the nerves, and open the way for serious illness. Take Foley's Honey and Tar. It quickly stops the cough and expels the cold. It is safe and certain in results. Lowman Drug Co., A. C. Dukes.

NOT A HORSELESS AGE.

Facts Seem to Indicate That It Is Farther Away Than Ever.

The horseless age that has been so persistently predicted is not merely slow in coming; the facts seem to indicate that it is farther away than ever and perhaps may never come. People must be riding a great deal more than they ever rode before. The automobile industry in this country has quadrupled in value in the last three years and has developed at even a greater rate in the number of machines manufactured. But the statistics of horseflesh keep on expanding. There were more than fourteen million horses in this country in 1897, but according to the figures for the year just closed there are 19,746,000 horses in the United States at the present time. This is a gain of nearly 40 percent. In a decade, a much larger one than the human element can show in spite of our large and continuous importations. As mechanical rivals multiply he rises in the scale of dignified personality. The last horse will probably take his leave at about the same time as the last man.—Boston Transcript.

Squeaky Shoes in Demand.

Small automatic pumps, very ingeniously contrived, spritzed air in between the layers of the soles of each finished pair of shoes.

"That beats me," said the visitor. "I never saw air put in shoe soles before. Pneumatic like that, are they very springy?"

"No, they're noisy," answered the foreman of the Lynn factory. "These shoes are for the export trade. They go to Africa. A native African judges the white man's shoes by their squeak. The louder the squeak, the finer the article. In fact, the native won't wear a non-squeaking, silent shoe. It is wind between the soles that make shoes squeak. Put in enough and your footgear will be as noisy as two pigs under a fence."

A Fireless House.

To demonstrate his faith in the practicability of electricity for all domestic purposes, an official of an Illinois electrical company has recently built a house at Carrollton, Ill., without a chimney or any other means of making use of fire. The house is heated by steam and the cooking done by electricity, both supplied by the heat, light and power company with which the gentleman is connected. This construction marks the beginning of an effort to obtain customers for current to be used in the kitchen, and a special rate has been fixed for that kind of service.

A Bit of Forestry.

"Do you know how to tell a hard wood tree from a soft wood tree?" said a forester. "I'll tell you how to do it, and the rule holds good not only here among our familiar pines and walnuts, but in the Antipodes, among the strangest banyans, baobabs and what-nots. Soft wood trees have needle leaves, slim, narrow, almost uniform in breadth. If you don't believe me, consult the pine, the spruce or the fir. Hard wood trees have broad leaves of various shape—the oak, the ebony, the walnut, the mahogany and so on."

Every Bird a Weathercock.

"Where's the wind?" scoffed the sailor. "Why, look at the birds—they'll tell you. Don't you know that every bird's a weathercock? Stop moistening your finger and hold it up." he went on, in a tone of disgust. "The practice ain't hardly clean. Look at the birds as all you got to do, for every bird sets with its head always straight at the wind. Every live bird in a tree is as reliable a weathercock as them dead birds on the spires what is so much considered in this here Lenten season."

Why Go to Bed?

It seems to me we make a mistake in prescribing special hours for going to bed and getting up. Why should we thus gorge ourselves with slumber? Why should we not follow the example of the dog and take an occasional nap when we have nothing better to do? Why should we go to bed when we don't feel sleepy? Why should we not take forty winks when inclined thereto? It strikes me there is too much method and regularity about our somnolent arrangements.—London Graphic.

Noiseless Europe.

Railway whistles inflict torture on so many people that the efforts abroad to check the plague have won approval from the people. Austria has introduced a system of dumb signaling to start and stop the trains. Belgium is trying compressed air whistles instead of steam, and Germany experiments with horns.

BURN SUGAR AN ANTISEPTIC.

Destroys Microbes of Disease—Effect Upon Disagreeable Odors.

The custom of burning sugar in a kitchen is very current among all classes in France, but up to the present has been regarded by scientists as one of those harmless and useless practices which are rather tolerated than insisted upon by the medical profession. But M. Trillat of the Pasteur Institute now assures us that formaldehyde is given off by burning sugar and is one of the most antiseptic gases known. Five grains of sugar having been burned under a ten liter bell glass, the vapor was allowed to cool. Vials containing the bacilli of typhoid, tuberculosis, carbon, &c., were then introduced. Within half an hour every microbe had succumbed. Again, if sugar be burned in a closed vessel containing rotten eggs or putrid meat, the disagreeable smell disappears. M. Trillat affirms that the formaldehyde combines with the gases given off by the putrid animal matter and renders them inodorous.—Practical Druggist.

Market for Old Horse Shoes.

Old horseshoes find a ready market in China. One steamer alone brought 300 tons of this iron from Hamburg. Chinese iron dealers buy the horseshoes and sell them to knife and tool manufacturers all over the province of Shantung. It is claimed by the Chinese that the temper of this class of iron makes it the best obtainable for knives and cutlery and also good for other tools. The reason ascribed for this is that the constant beating the shoes have received under the feet of horses has given them a peculiar temper absolutely unobtainable in any other way, and that tools made from them are superior to all others.

Petroleum Butter.

One of the very late by-products of petroleum is butter. It is far superior to most of the cheap so-called butter that is sold in corner groceries, and a good deal better than oleomargarine. I had the experience of eating some the other day without knowing what it was and thought it was excellent. I assume it is vaseline prepared in a buttery way. Nothing simpler or easier. What next? Will wonders never cease? If olive oil were made into solid cakes and served as butter it would be in great demand as food. People in general believe it is made only for salads. A few cook with it.—N. Y. Press.

Inventor of Envelopes.

It is somewhat curious that such a simple contrivance as the envelope should be a comparatively modern invention. As a matter of fact, it is just a hundred years since a paper manufacturer of Brighton named Brewes invented envelopes for letters in their present form. Even then it was some considerable time before their use became at all general, not, in fact, until somewhere in the year 1850. Before this date, (as many who are living now will remember) a letter, written only on one side, was folded in two, then in three, sealed with a wafer or sealing wax, and addressed on one of the blank sides.—The Gaulois.

A Town Without Taxes.

Orson, in Sweden, has no taxes. During the last thirty years the authorities of this place have sold over one million pounds' worth of trees, and by means of judicious replanting have provided for a similar income every thirty or forty years. In consequence of this source of commercial wealth there are no taxes, and local railways and telephones are free, as are education and many other things.—Tit-Bits.

A Diving Sponge Boat.

A submarine has been built by a company at Bizerta, France, for sponge fishing. When sunk it can travel on a short of wheel along the bottom of the sea, being worked by two submarine oars from the inside. It collects sponges by means of a mechanical gripper, and has electrical searchlights, a telephone, and a speaking tube by which it can communicate with a boat on the surface. The submarine has already been down to a depth of 330 feet.

At the Dry Inn.

"No use to ask me, Colonel," said the landlord. "I'd like to oblige you, but you know as well as I do that Georgie is dry. Howsoever, if you step upstairs while I put out the light you may stumble over something—but even if you fall downstairs and break your leg—mind now—I don't know what done it!"—Atlanta Constitution.

Military Schools in U. S.

Of strictly military schools there are 175 throughout the land. New York has 32, New Jersey 9, Pennsylvania 11, North Carolina 7, Texas 9, Wisconsin 4, California 9 and Illinois 6.

A Reasonable Recitation.

"In order to be a regular optimist," said Uncle Eben, "it's a good idea to start out with your arrangements all made for three square meals a day and a payment of debt."—Washington Star.

The Paying Teller Admonished. The Farmer—See here, young man, none of your monkey business. Them ain't the same bills I deposited here last month.—Brooklyn Life.

There is a Pink Pain Tablet made by Dr. Shoop, that will positively stop any pain, anywhere, in 30 minutes. Druggists everywhere sell them as Dr. Shoop's Headache Tablets, but they stop other pains as easily as Headache. Dr. Shoop's Pink Pain Tablets simply coax blood pressure away from pain centers; that is all. Pain comes from blood pressure; congestion. Stop that pressure with Dr. Shoop's Headache Tablets and pain is instantly gone. 20 Tablet 25c. Sold by Dr. J. G. Wannamaker Mfg. Co.

S.S.S. CURES SKIN DISEASES

There is an evaporation from the body going on continually, day and night, through the pores and glands of the skin. This is nature's way of maintaining the proper temperature of our systems and preserving the softness and flexibility of the skin, and so long as the blood is free from impurities no trouble will result. When, however, the blood from any cause becomes infected with humors and acids, these too must be expelled, and coming in contact with the delicate fibres and tissues with which the skin is so abundantly supplied they produce irritation and inflammation, and the effect is shown by Eczema, Acne, Tetter, and skin affections of various kinds. These impurities and humors get into the blood through a deranged or inactive condition of the system; the members whose duty it is to carry off the waste and refuse matter of the body fail to properly perform their work, and this impure, fermenting matter is left in the system to be absorbed by the blood. The skin is not only affected by poisons generated within the system, but poisons from without, such as Poison Oak, Poison Ivy, Nettle Rash, etc., enter through the open pores and glands, and so thoroughly do they become rooted in the blood that they are ever present, or return at certain seasons of each year to torment the sufferer. Salves, washes, lotions, etc., cannot cure skin diseases. True, such treatment relieves some of the itching and discomfort, and aids in keeping the skin clean, but it does not reach the real cause, and at best can be only palliating and soothing. A thorough cleansing of the blood is the only certain cure for skin diseases. S. S. S., a gentle acting, safe blood purifier, made entirely of vegetable ingredients of the forest and field, is the proper treatment. S. S. S. goes down into the circulation, and neutralizes the acids and humors, thoroughly cleansing and purifying the blood, and curing skin affections of every kind. It supplies to the blood the fresh, nutritive qualities necessary to sustain the skin and all other parts of the body, and salts the blood of any and all poisons. S. S. S. cures Eczema, Tetter, Acne, Salt Rheum, Poison Oak and Ivy, Nettle Rash, and all other skin troubles, and cures them permanently by removing every trace of the cause from the blood. Special book on Skin Diseases and any medical advice desired furnished free to all who write.

THE SWIFT SPECIFIC CO., ATLANTA, GA.

GLOVER'S

WE'RE WAITING FOR YOU

You may be one of the many who find it hard to decide which Clothier to buy from. We admit it's a hard thing to decide when each one is shouting or claiming in the biggest type he can find, that his store is the best, and the others are no good. We don't ask you to read our ad, and then rush in and buy blindly. All we want is a chance to show you. It won't be hard for you to make up your mind after one visit here. We know What's What in Clothes and can teach you. We are willing to prove any minute of any business day, beyond any doubt that in values for the price, in Style Advantages, in quality of goods it will pay you to wear our Clothes. You'll get more here than just something to wear. You'll get Satisfaction or your money back. Want you come in and take a peep at the many new, distinctive Suits we have ready for you to Slip in and Wear Off? Seeing does not oblige you to buy.

H. C. Wannamaker,

I represent companies that know to be good.

Give me some of your business.

WHICH IS MORE URGENT?

FIRE INSURANCE.

Important? You fully realize it. You would not allow your house to remain uninsured overnight.

Your house may never burn. Comparatively few buildings ever do.

If your house does burn, your property is destroyed, but you can still provide for your loved ones. Your income remains unaffected, your earning capacity unimpaired.

If your house is not insured at all, or for an insufficient amount.

YOU CARRY THE RISK.

Your friend has had his home insured these 30 years, and has had no fire. He has been fortunate in that though he has nothing now to show for the money paid out.

WHICH IS MORE URGENT?

JOHN GELZER
